FLASH

GREYHOUND ELECTRONICS INTRODUCES

G.E.I.

700.00
Greyhound Electronics Inc. would like to introduce our latest division called G.E.I. This new division will be manufacturing our newest and hottest counter top machine called CASINO GAMES. This model will be known as Model #104 CT. It will have four different games in one counter top cabinet. The customer will have their choice of playing the following four games:

JOKER POKER (HI-LO) ✓

BLACK JACK ✓

CASINO (FRUIT) SLOTS ✓

BEAT THE SPREAD ✓

G.E.I. is always developing new and different games which can be easily adapted to any of our existing games. All that is necessary is the replacement of our game chip into the satellite board.

G.E.I. will be developing new games approximately every nine months to keep the players appeal high and the customers revenue increasing.

Enclosed please find pictures of our new counter top model #104 CT. G.E.I. IS LOOKING FORWARD TO HAVING YOU FOR A CUSTOMER.

Carmen Ricci

FLASH!

Greyhound Electronics, Inc. proudly announces the introduction of our new game version "ROLLING BONES". "ROLLING BONES" is Greyhound's version of the ever popular craps game. This new game has all the on-screen pizzazz that Greyhound has become famous for. Greyhound Electronics introduced this new game at the recent A.M.O.A. show and it received rave reviews from all the attendees who saw it.

Greyhound Electronics, Inc. also unveiled two new game models that will prove to be the trend setters for 1984:

MODEL #104 incorporates 4 game versions in one cabinet.

MODEL #108 incorporates the option of 4 pure amusement or 4 play credit games in one cabinet.

Greyhound Electronics has, because of popular demand, expanded its conversion kit line. Many operators have been converting their existing Poker games or old video games to stop the depreciation problem that been cutting into their net profits.

Greyhound Electronics, Inc. would like to take this opportunity to wish you and yours a healthy and happy holiday season.

Sincerely yours,

Carmen J. Ricci
