

CRIMSON SKIES™

Crimson Skies is bringing the big guns to the arcade! In an air pirate's world, it's all about fast planes and heavy firepower. The setting is 1937, and you are a dashing ace pilot. Put to life by the TsuMo™ motion base, you will feel your stomach drop as you dive from the skies, rattle as you let loose on the cannon, and try to keep it together as you pull off amazing barrel rolls and loops. Arcade flying has never been more realistic than this, and it's available only on TsuMo™!

- Choose from exciting missions in the lush of Hawaii, the foggy Northwest Coastline, the star-studded city of Hollywood, or the treacherous Rocky Mountains.
- Choose from over 10 aircraft; including the battle-hardened Devastator to the sleek and agile Fury.
- Rescue gorgeous dames from dastardly villains, dogfight enemy planes as you swoop from the clouds, and strut your stuff by stunt flying through city streets and tight caverns.
- Battle enemy zeppelins while protecting your own!
