

DOZER

Driving Action at its Best

Operate your own "Bull Dozer" and plow a load of "ore" into a "mine pit". Each load plowed into the "mine pit" is weighed, scored, and processed in a simulated refinery and returned to the "ore" pile. A skillful Dozer operator can earn overtime and additional scoring.

Specifications

Depth: 35" Width: 40"
 Height: 50" Weight: 248 lbs.
