**Contests and Promotions are Proven to
Increase Revenue and Solidify Customer Loyalty.
These are the **FACTS****

**See for yourself what the power of local contests and promotions
on Incredible Technologies games can do for your business. Get the **FACTS** today!**

Operators Who Know the FACTS™

Operators and players across the country already know the benefits of FACTS:

✓ Larry Elbert of Camden Amusements knows the FACTS:

"Using IT's free software to run our contest has raised my revenues 220% on top of an already great return. I highly recommend all operators learn to use these reports and run a contest. I've got my foot in the door at a whole bunch of locations wanting my contests".

✓ Jim Bremmer of Bremmer Vending Co. knows the FACTS:

"Our 'Trip to Cancun' contest was a big success. We doubled our earnings and all our locations and players are really excited and looking forward to our next contest".

✓ Doug Riquier of T&M Distributors knows the FACTS:

"It was pretty easy getting the locations involved. I show them that they make 62 ½ cents more every time someone plays in the contest, and that gets them excited about it".

✓ Christian Vara of Melo-Tone knows the FACTS:

"These contests have put us in a unique position of strength with our establishments. The locations love it. The contests bring people into their places on slow nights, and we have safeguarded our accounts. These contests are really fun to run. Everybody has fun, and we get the added income on the route".

✓ Evon Brown of B & B Music knows the FACTS:

"My revenues went up and my locations were thrilled that I was doing something. It really did bring more players into the bars. The Michelob guys worked so well with us. They provided banners and other promotional stuff and are even sending a promotion team to our players' party. Our Michelob distributor has been great."

✓ Alan Persan of Paramount Vending knows the FACTS:

"We are entering into our fourth twelve-week tournament which will end our first full year contest. We could not have done this without the software to keep up with standings and player scores, leaderboards and print outs. We have increased our customer base and our bottom line thanks to this program and we are now operating over one hundred Golden Tee Fores on line."

✓ Bill Chan of Davis Skill Games in Canada knows the FACTS:

"I use it on a daily basis. I can manage a single contest or several all at the same time with ease, at the office and right from home. The easy pick-and-choose menus give the freedom to run more than one style of contest over the course of the year, giving players the desired variety and multi-tiered skill level competition they look for. This tool is a must for all on-line Golden Tee operators."

✓ Derek Holden of Wizgames in Australia knows the FACTS:

"It's better than a crystal ball. All I have to do is ask it the questions and it gives me all the answers. I know when the location is active, inactive, who's playing, when, how well, what comp is most popular and a host of other details. I can then plan my next tournaments accordingly. Its too good, mate!"

✓ Graeme Noble of Essential Leisure in Australia knows the FACTS:

"The tools have revolutionized the way I run my in-house comps. It's increased revenue because daily leaderboards keep players coming back for more. And the depth of information on my reports is great! Thank you IT."
