SNK'S MISSION: Bring back the pure enjoyment of fighting game competition!

**NEW FEATURE: THE "HEAT GAUGE".  
CHECK IT OUT!**

The Heat Gauge increases when normal attacks hit opponents or Super Special Moves are used.

When hit by attacks, the gauge decreases. (When the gauge is exhausted, the character will be knocked senseless.)

The Heat Gauge maintains a fixed amount at all times.

When the Heat Gauge reaches the Max condition, use either of the following two attacks.

### Super Deadly Attack

An attack that exceeds the destructive power of Deadly Attacks.

### Overdrive Power Attack

An attack that exceeds the two types of attacks above in destructive force.

### HeatBlows

Makes characters invincible after activation to deliver attacks opponents cannot avoid.

**THE "HIT GAUGE" SHOWS  
JUST WHAT YOU'VE GOT!**
