# Get Bass™

SEGA BASS FISHING.

## At last, fishing without the creepy worm!

Your timing has to be perfect. Feel the bite transmitted through the rod and pull him in. Not too hard! If you reel too forcibly, your rod will break and you'll lose that fish forever. You get three shots at the big one, so you better make them all count! A 50" monitor, with vivid action scenes, throws you in the water with real video footage. Sega's aquatic sound effects bring the water alive with true detail!

With rod and reel in hand, find out who is better at the sport of fishing, you or 24 different breed of fish.

Get hooked on this Model 3 3D fishing simulated game that offers all the fun in the sport of fishing without getting soaked.

The cabinet, reminiscent of a fishing boat, with hydrographic sound effects transports you into a competitive paradise.

Try out your reeling skills on one of 3 courses.

3 shots to snag the big one but you better use care, one strong tug could snap your rod!
