Moreover, this game is based on the most popular episodes of the JOJO series, Chapter 3.

High-tech graphics made possible by the great capabilities of the "CP-SYSTEM III" backed with years of experience and technology of 2D graphics has revived "JOJO" in complete detail.

New Systems

Alas, through improvements and evolution... the "Stand System."

This, never seen or heard before system, allows the player to use his character and the "Stand"(the inner-spiritual self, created by the soul and energy of the character) at the same time.

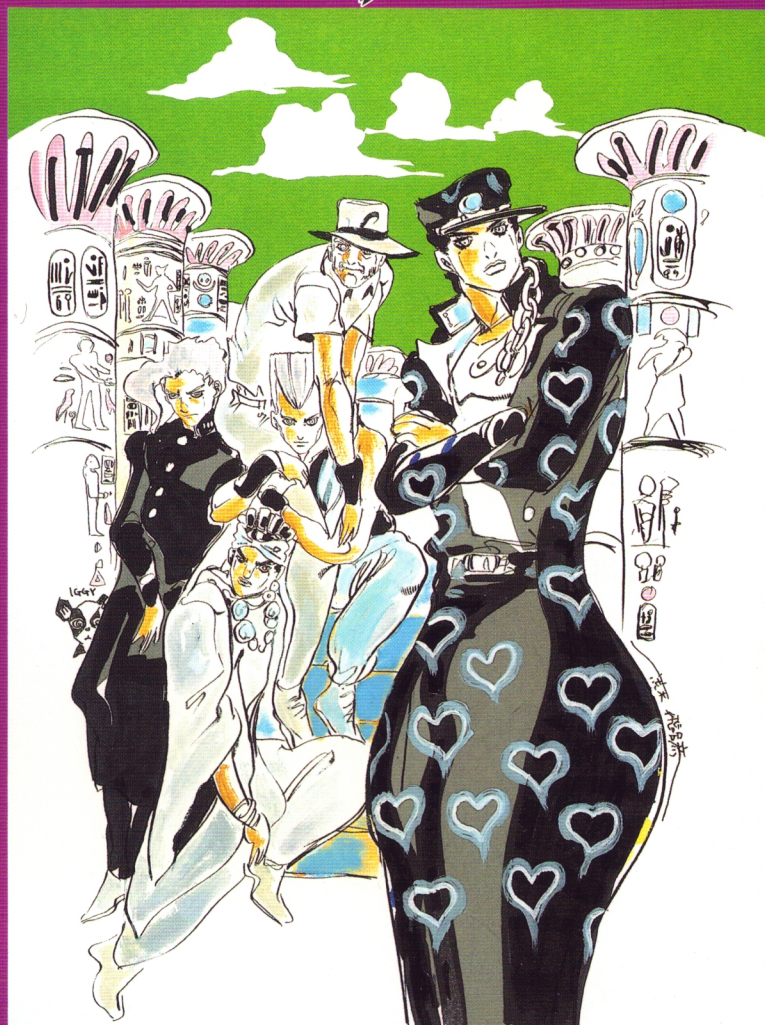

The players determine how the "Stand System" dictates the game. It is a strategic game that makes you want to challenge again and again.
