

LAZER-TRON ARCADE PCTM SYSTEM

Hot PC Game Titles For the Coin-Op Market!

Lazer-Tron in conjunction with Opus Entertainment and LBE Systems have combined to bring to you great PC game titles for the coin op market from such hot designers as Id Software, Sony Interactive, Microsoft/Terminal Realty, Acclaim/Probe, Edios/Ion Storm, Gremlin, Housemarque and more.

Unique play characteristics, features, levels and characters are being added to enhance the game play to meet the expectation level of coin operated game players. Hot new tournament and prize features are also being added to encourage repeat play. In addition to traditional style video games, some very unique styles of games never seen in the arcade before will be released.

New games will be released monthly.

Available in 3 formats:

- **Dedicated cabinets:** A 27" arcade cabinet is currently shipping with one game installed. A kid sized video cabinet and a deluxe showcase cabinet will be released later.
- **Legacy Kits:** A legacy kit will convert an operators current low and mid resolution Jamma cabinets into a new Arcade PC game system.
- **Software Kits:** If an operator owns a Lazer-Tron Arcade PC or a Legacy kit, they will be able to purchase new game kits.

Operators will receive tremendous benefits by inserting new games into their locations on a more frequent basis without the heavy expense of buying new dedicated cabinets each time. Changing games more frequently will not only enhance the players' experience at your location but it will enhance your bottom line.
