Mortal Kombat 3

With the support of Midway's national ad campaign, MK3™ will reach a level of hype like no other game in history. The underground symbols featured in this media onslaught are clues to help unlock MK3's six-digit encryption code. When a code is cracked, the game answers with a gift of power or dimension to keep those quarters rolling.

▲ Cracking the unique 6-digit encryption code will empower players with secret moves.

But that's just the beginning. MK3 offers a long list of impressive new features to help you cash in.

- Eight all-new characters.
- Image memory increased by 50% for smoother animation.
- ⚡ Thirteen new three-dimensionally rendered moving backgrounds for improved image quality.
- ⚡ Secret portals that allow fighters to smash up and down into different backgrounds for the ultimate bi-level battlefield.
- ⚡ An expanded control panel that includes a "run" button—allowing faster, more intense play for every character.
- Intense, live-action, fully-digitized fight sequences for the most realistic action the industry has ever seen.

◀ MK3 uses 50% increased image memory for stunning graphic resolution. As well as 12 new 3D-rendered, source-digitized moving backgrounds for a richer depth of field.

► MK3 will feature eight new fighters, plus six returning favorites for more secret moves than ever before.

MK3 includes a wide variety of options—a kit that's available immediately and a violence control dip switch. And for earnings with maximum staying power, there are ROM
