WORLD TOUR

Universal Appeal

Rampage World Tour is built for the general public - children, adults, teenagers, couples — not just the hard-core player. It's for kids who are too old for redemption, yet too small to reach the pedal on driving games. Rampage World Tour is fun and simple enough for everyone, with the depth to appeal to serious players.

The Perfect Addition

Rampage World Tour perfectly rounds out any arcade game mix. It has a niche of its own, for players who want an exciting change, or for those who are intimidated by the skill-based video games.
