

# Chicago Coin's Rifle Gallery

It's a uniquely new rifle game.

- Because of its 8-foot height, Rifle Gallery commands immediate attention yet requires no more floor space.
- With 20 challenging targets, 20 shots per game and a clock to beat, this game is 100% skill.
- When all targets are knocked down within allocated time, player's coin is returned. Adjustable to free play, extended or regulation play.
- Great realism! A longer rifle barrel, true recoil and electronic sound make Rifle Gallery look, feel and sound just like the real thing.
- Priced right and designed for extra-easy maintenance.
- 25¢ play adjustable to 10¢.
