

San Francisco **RUSH**TM **EXTREME RACING**

Is it real? Or is it RUSH?

Engineered like a fine sports car, San Francisco RUSH has what it takes to become a Classic!!

SF RUSH has universal appeal, combining an unparalleled level of realism, racing excitement and game depth that provide an experience unlike that found in any other driving game!!! Experience the excitement and challenge of racing up and down the scenic, air-catching hills of San Francisco.

So Real You Can Feeeeeel it!

Feel the RUSH of racing around the world-renowned landmarks and up and down the crookedest street in the world, when you can jump off the top?

Why drive down Lombard Street, the crookedest street in the world, when you can jump off the top?

Dash across the Golden Gate Bridge, drive through a thick cloud of fog, race

through downtown's financial district, speed to the top of

Twin Peaks, fly over Russian and Nob Hills.

Feel the Race through the force-feedback steering wheel and realistic "surround sound" audio effects. Spectacular explosions, collisions, and crashes are punctuated by an 8-inch woofer placed in your seat. A clutch pedal accompanies the four-speed shifter to provide another dimension of racing challenge for the real thrill seekers. Mind-blowing photo-realistic 3D graphics are powered by Voodoo Graphics™ technology.

Crafted for Longevity

Depth like no other driving game, SF RUSH offers everything from

an exhilarating high-speed dash to the finish, to an extremely challenging "real-life" simulation of a sanctioned race.

Something for every player, novice to expert

Each of the eight race cars has unique handling characteristics. Everything from a simplified

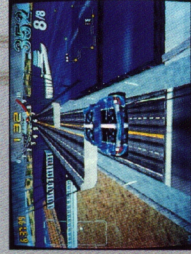

and forgiving driving game speedster to a full-blown simulated race car.

After players master the courses with the friendlier cars, they will try on the more advanced cars for a greater challenge.

Spectacular and novel hidden shortcuts buried in each track

Imagine jumping across rooftops, driving through sewers, and falling from suspended freeways!

These shortcuts offer a challenging way for players to jockey for position.

If negotiated well, players can make up time on their opponent. If not . . .

Mastering the variety of race cars and shortcuts will mean serious earnings over the long haul!!

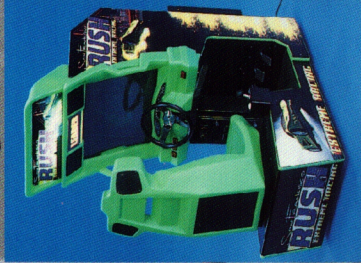

San Francisco RUSH sets a new standard for arcade driving games.

Sure to Steal the Heart of Every Operator

Street Legal Racing!!

The basic configuration for San Francisco RUSH is a single-seat cabinet. Its small footprint makes it perfect for every location.

Single Cabinet

Width: 30 in. (76.2 cm)
Depth: 65 in. (165.1 cm)
Weight: 425 lbs. (193 kg)
Height: 67 in. (170.2 cm)

Option: Link 'em Up for Greater Earnings!!!

Not just 2-3-4-5-6 or 7, but up to 8-seat linking capability makes San Francisco RUSH the ideal attraction piece. The Link Kit* includes a coupler and 8-inch spacer brackets to separate each cabinet. To link more than 3 cabinets, the coupler must be replaced by an Ethernet hub. *The Link Kit Spacer Brackets are required between each cabinet.

Deluxe

Height: 89 in. (226 cm) w/banner
Height: 91.5 in. (232.4 cm) w/Deluxe

Tournament Mode

Ideal for special events or for standard operation in high-traffic locations.

Take the checkered flag with San Francisco RUSH!!!
