# SENSATIONAL SHOOT OUT ACTION!

Bad Guy target darts out of stable door and starts to run across the street. If shot before he disappears into another building, player scores 100. Each time a hit is made, target turns and runs in the opposite direction. Fast, accurate shooting keeps target moving, builds up the score. Other Bad Guys pop up on the street and out of windows and score 100 when hit. Still another runs across the roof on the saloon porch. Hitting this Bad Guy scores 200, and WHEN HIT HE FALLS OFF THE PORCH!

## MAN-TO-MAN CONFRONTATION

High point in the action comes when lights warn player to "Get Ready for Shoot Out". As the word "Shoot" flashes, saloon doors fly open to reveal another Bad Guy target. Player must fire before the Bad Guy shoots. A hit scores 500, and "You Got Him" lights up. If Bad Guy shoots first, "He Got You" lights up.

## REALISTIC SOUND

Gun shots and whining ricochets. Optional additional sound includes vocal remarks that taunt and egg players on, plus barrelhouse piano music background. Sound volume adjustable.

Gun is authentically designed **lever-action carbine**, adjustable to automatic fire. Player shoots against time. Adjustable. Extended Play, adjustable. Spectacular Black Light. Quarter Play.
