SOLAR ASSAULT™

JOYSTICK/THE SPLASHING LASER

Use the joystick to control your ship, press the shot button for missiles and pull the trigger to fire the laser.

Collect the laser icon to get the "splashing laser". To energize the splashing laser, hold down both the trigger and the missile button. Release the trigger or button to fire this special attack. The longer you energize, the stronger the laser becomes.

SELECTING THE VIEWS

Select from two different views: the dynamic, close-up view or the distant, easy control view.

SELECTING A POWER-UP SYSTEM

Choose the manual power-up option to create your own power-up weapon configuration.
