SUPER BUG

Super Bug! Super Thrills!

Super Bug is a completely new single-player driving challenge. A bright yellow "modified bug" speeds through tree-lined city streets in a fast moving rally race. The constantly moving streets provide new excitement and driving challenge every time the game is played, as the driver races the clock to cover as much distance as possible for highest score.

Directional arrows appear on the road to warn drivers as they approach turns. Quick reflexes are a must to avoid crashing into curbs and parked cars. And to avoid sliding into oil slicks and sand traps.

Players select "Novice" or "Expert" tracks, shift into first, step on the accelerator and take off. The roar of acceleration, crash and skid sounds add to the excitement. Score, Fuel (time remaining) and driver Ratings are displayed on the screen, as well as "Crunch" whenever the player crashes.

Exclusive Operator Options.

New with Super Bug! Now video messages can be operator selected to display: English, German, Spanish or French. (The monitor photo shows "Essence" the French word for fuel.)

Game Time is adjustable to **60, 90, 120** and **150** seconds.

Extended Play. Three optional bonus levels for each game time.

Coinage. 1 or 2 coins per play, 2 plays per coin.

Exclusive New Coin Door. Super Bug also comes with Atari's new coin door designed for trouble-free, tamper-proof operation.

Self Testing Means More Earnings.

Atari's unique built-in self-diagnostic program displays all micro-processor and memory functions including game options for easy on-the-spot checking and trouble-shooting.
