1 NEW GAME— 2 NEW WAYS TO MAKE MONEY!

For over 40 years we've led the field, perfecting the art of what it takes to make the best shuffle alleys in the business. Our standard of excellence and success is recognized as being second to none, and now TOP DAWG builds on this strong tradition you've come to expect from the shuffle alley experts at Williams.

In addition to the proven play appeal of Regulation, Flash and Strike 90, TOP DAWG features TOTAL STRIKES, an exciting new shuffle option where scoring is just like regulation bowling—with a major difference. Every time players

make a strike, it's recorded in the backglass and, at the end of the game,

a bonus of 300 points is rewarded for each strike.

TIC TAC II takes a strong money-making concept one step further. To start, the game

randomly spots 3 squares on a backglass grid. Each strike made earns the player 300 points and lights a square while each spare earns 100 points. To strike it rich, players must light three squares in a row—vertically, horizontally or diagonally—in order to score an extra 500 point bonus.

But new features and effects are only part of the TOP DAWG magic. Add in Williams' state-of-the-art technology with advanced diagnostic procedures, comprehensive bookkeeping functions, easily identifiable connectors as well as printed circuit boards for simple servicing and troubleshooting. It's quality craftsmanship throughout... making TOP DAWG *the* top shuffle alley for now and well into the future.
