

WANGAN MIDNIGHT

TM

Wangan Midnight is the first arcade racing game that allows players to challenge each other during a one-player race. Cars range across several popular manufactures including Subaru, Mitsubishi, Nissan and several others.

Three Game Modes

- **Story Mode:** In dramatic fashion, the player seeks out and defeats rivals. The player continues until they are defeated by progressively more challenging opponents, or until they have cleared all eight stages.
- **Time Attack Mode:** Select one of eight tracks as you compete for the highest rank.
- **Versus Mode:** Players can challenge each other to versus racing at any time.

Wangan Midnight divides the mammoth Metropolitan Expressway in Tokyo into eight tracks.

As the player cruises the expressway they will encounter rivals or be challenged by other players.

Realistically, the weight of traffic on the expressway ebbs and flows across the day, therefore players must not only face their rivals, but also skillfully navigate dense traffic.
