To bring **W** excitement to players, we brought the **W** to Midway Studios. There, we videotaped them in action for maximum detail and realism.

If you're looking for a brawl, you'll find it in Midway's **WRESTLEMANIA**. We've videotaped the World Wrestling Federation's eight biggest stars for this battle of the bruisers. From the coolest to the cruelest, the good, the bad and the downright ugly, they're all ready to dish out the pain and punishment... and take it.

Other wrestling games are no match for Midway's **WRESTLEMANIA**. It's the first game to use real World Wrestling Federation® superstars— all videotaped and digitized at Midway Studios for ultra-clear reproduction and unparalleled realism. The DCS Sound System™ delivers all wrestlers' theme songs, sound effects and the ringside announcer's voice with the extra punch of high-fidelity. Plus, a new all-in-one board design will put a sleeperhold on counterfeiters.

WRESTLEMANIA's control panel sports a unique new grab feature that takes play action to a whole new dimension. Players can pit their favorite wrestlers against each other and use their famous signature moves to crush the competition. They can even wrestle against themselves. But watch out for the dirty duels, when up to three World Wrestling Federation superstars gang up against one player, and the all-out wrestling frenzy, when two players take on the entire World Wrestling Federation Team.

Make no mistake, **WRESTLEMANIA** is coming, and it's going to be big. Get it or get out of the way.

Each **W** superstar is rated for power, speed, agility, and recovery time.

When the action is more than the ring can hold, players can settle their differences outside.

Midway's high-tech hardware, actual **W** superstars and greater realism make **WRESTLEMANIA** the one to beat.
